CBFWA – Portland, Oregon
Teleconference (503) 229- 0449 Id: 318752

Draft Agenda

ITEM 1: Introductions

ITEM 2: Clarification of Task

In 2007, the MAG tasked the LTWG to “work with the Corps and other interested parties to develop lamprey passage objectives and related performance standards and measures.” A subgroup of the LTWG volunteered to work on this assignment.

ITEM 3: Effort to Date

A teleconference was held on September 24, 2007. The subgroup spent a considerable portion of the teleconference discussing the inherent difficulties in determining passage objectives, standards, and measures for Pacific lamprey.

The subgroup determined that both interim and long-term objectives should be developed for juveniles and for adults. The subgroup determined that for both life stages, a one-day workshop would be required to (1) develop interim passage objectives, and (2) develop a list of information needs (studies) for long-term objectives.

ITEM 4: Moving Forward

The action assigned from the first teleconference was:

The subgroup will work with the LTWG, the AFAC, the Corps, and other interested parties to schedule a two-day workshop to (1) develop interim passage objectives for both juvenile and adult Pacific lamprey, and (2) develop a list of information needs (studies) necessary to develop long-term objectives.

ITEM 5: Next Teleconference
