Attendees: Dave Ward (CBFWA)

By Phone: Josh Murauskas (Chelan County PUD), Bao Le (Longview Associates), Mike Clement (Grant County PUD), Gene Shippentower (CTUIR), Bob Mueller (PNNL), Brian McIlraith (CRITFC), Chris Peery (USFWS), Bob Rose (YIN), Dave Statler (NPT)

Time Allocation:	Objectives 1. Committee Participation	100%
	Objectives 2. Technical Review	0%
	Objectives 3. Presentation	0%

ITEM 1: Introductions

ITEM 2: Progress to Date

Discussion: Josh distributed the draft document “Run Characteristics and Current Distribution of Pacific Lamprey in the Columbia River Basin”. This document is meant to be the background piece for the Phase II effort. The subgroup agreed that the document was a very good start.

Sections of the document that need to be filled in include summaries of evaluations at each mainstem dam, plus a summary of recent and planned configurations to fish ways at each dam.

Josh and Mike agreed to provide the information for Columbia River PUD dams. The subgroup agreed that Dave should contact Sean Tackley of the USACE to ask Sean and Derek Fryer to contribute information on Federal lower Columbia and Snake river dams.

New information, as well as comments and suggested revisions to existing information should be provided to Josh by April 27. Josh will then incorporate new information and edits and have a draft available by the May 2 meeting of the subgroup.

ITEM 3: Next Meeting

The subgroup will meet in person on May 2, 2011, 3:00 PM to 5:00 PM at the CBFWA office. This will be the afternoon before the meeting of the entire LTWG.
