Recommending Allocation of the FY 2002 Uncommitted Funds - Tom  
Giese & Tom Iverson, CBFWA**  
1:00-

At the last MMG meeting there was an objection to forwarding the letter for consent mail. Additional material is attached to facilitate the discussion. The draft letter outlines what the work group agreed should be the CBFWA recommendation for allocating the \$14.5 million in FY 2002 uncommitted funds (as outlined in the attachment). The MMG will discuss the disposition of the letter and possible approaches for recommendations for the unallocated placeholder.
