Subject: contract amendment for WDFW

Hi Kathie:

I recently received an internal summary of the remaining funds in our CBFWF contract and would like to request an additional \$5,000 to cover us for the remaining contract period. We've been active in past couple months with Council, Members, MAG, WAC, AFAC. And with WDFW participation in upcoming meetings of those committees and RFAC, and the new Data Management Framework sub-committee, we will be overbudget by the close of the contract period at the current level.

Please let me know what is the best way to pursue a contract amendment.

Thanks in advance-

Nate Pamplin
