Jann and Tom-

We've discussed providing some funds to CBFWA to help cover some of the costs of facilitation of regional forums. The line item in our draft budget to BPA for 2012 is currently \$5,000. I would anticipate this being paid in a lump sum billed for facilitation services or similar mechanism. There may be some flexibility in our contribution depending on the annual expected workload and contributions from other parties.

Hope your Friday is going well,  
Lance
