The screenshot shows the Columbia Basin Fish and Wildlife Authority website. The header includes the logo and the text 'COLUMBIA BASIN FISH AND WILDLIFE AUTHORITY'. Below the header is a navigation menu with the following items: Basinwide Summary, Anadromous Fish, Resident Fish, Wildlife, and Watershed Condition. The main content area features a large image of a bald eagle and a map of the Columbia River Basin. The title of the page is 'Status of Fish and Wildlife Resources in the Columbia River Basin'. The text below the title reads: 'This project presents data about the current status of subbasins within the Columbia River Basin. Explore the links to the left to view historical abundance data for focal species in each subbasin, interact with geographic data representing species distribution, population status, Endangered Species Act status, and species limiting factors, and see what projects are currently in place to help fish and wildlife.' At the bottom of the page, there is a footer that says: 'Maintained by the Columbia Basin Fish & Wildlife Authority. Please direct comments or questions to the webmaster.'
