ority limiting factors and focal species in priority areas. The annual report will include a discussion of any data gaps, redundancies and recommended changes to achieve greater efficiencies.

F. Program Coordination

The Council benefits from the coordinated efforts of many groups, committees and organizations in implementing the Council's Program on an ongoing basis. Continued coordination of various Program elements is expected, supported, and in some cases financed by Bonneville. The elements below represent the key areas in which the Council seeks continued coordinated efforts from fish and wildlife managers and interested parties throughout the region. Coordination funding should be focused on the following activities that support Program implementation:

- Data management (storage, management, and reporting)

- Monitoring and evaluation (framework and approach)

- Developing and tracking biological objectives

- Review of technical documents and processes

- Project proposal review

- Coordination of projects, programs and funding sources within subbasins

- Facilitating and participating in focus workgroups on Program issues

- Information dissemination (technical, policy, and outreach)

Any entity or organization receiving funding for coordination of Program activities must develop a work plan detailing the coordination elements, objectives, deliverables, and budget. All coordination work will be reviewed as part of the Council's project review process and as necessary, scientific and administrative review. The Council will recommend to Bonneville the level and type of coordination required to implement the Program.

G. Coordination with Other Regional Programs

The Council will continue to pursue opportunities to implement the Program in coordination with other federal, state, tribal, Canadian, and volunteer fish and wildlife restoration programs. The Council will continue to work with national programs that influence our work in the basin, such as the Clean Water Act, and the Endangered Species Act.

The Council will coordinate with organizations that track
